Battery free pen with pressure sensitivity for actual pen & paper feel

Multi Finger Touch & Gesture enabled tablet surface

Over 1375 technology patents and counting

GLOBAL NO. 1

About Wacom

Wacom is the global leader in the pen display and tablet market for creative users. As a technology company, we provide cutting-edge digital ink solutions for a wide range of partners using and producing smartphones, tablets and digital stationery.

Founded in 1983 and headquartered in Tokyo, Japan Wacom is known world-wide for developing unique technology to use in its products. Wacom tablets use patented called "Electro Magnetic Resonance", or EMR technology. Since the tablet provides power to the pen through resonant inductive coupling, no power is required for the pointing device. As a result, no batteries are inside the pen, making them lighter and slimmer.

We use our technologies to enable the best digital ink and pen experiences to our customers throughout their lives and across their areas of life. Digital pens and digital ink are at the center of all our activities. Ink is the medium humans have been using for thousands of years to express and preserve. Creatives use it to visualize their inspirations. And everyone uses ink to capture thoughts, to communicate, and to sign.

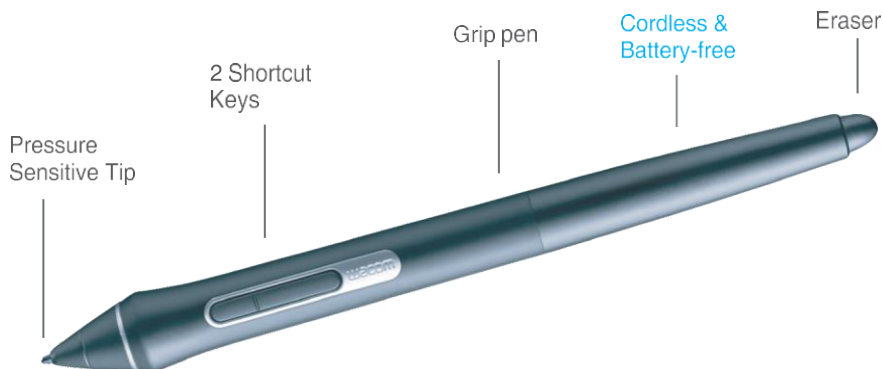

Wacom Technology

Powerful Pro Pen 2

Serious artistry

With a new, ergonomic design, the Pro pen 2 provides a more comfortable feel than ever. You can also count on precise control, thanks to wacom's 8192 levels of pressure sensitivity and tilt recognition. The pen responds to the slightest nuance of your touch, as you press the pen against the tablet surface.

Multi-Touch Gesture control

Touch enabled

The combination of pressure-sensitive pen input with multi-touch gesture support delivers a more fluid, more enjoyable experience as you create. Pan, zoom and navigate naturally with gestures on the multi-touch surface.. Create and access your own multi-touch shortcuts.

FIVE

things to consider before
your purchase

1 Reputation for Quality

Wacom has been the world's leading manufacturer of pen tablets, interactive pen displays and digital interface solutions for more than 30 years

2 Physical Fitness & Flexibility

Wacom tablets and displays allow for ergonomic correctness in multiple positions and enhance comfort and usability. Wacom pen is a far superior ergonomic choice over a mouse

3 Reliability & ease of use

Wacom products are about intuitive design, plug & play functionality, standardized connectivity and easy set up and work with common softwares. Wacom offers best-in-class customer support and 1 year onsite warranty

4 Professional Standards

Wacom interactive pen displays and pen tablets are regarded as the gold-standard input devices in countless schools and design studios worldwide

5 Loved by our users

Wacom is the preferred choice of top design teams in India for over 35 years.

"I use Wacom pen tablet and it has proven to be a reliable partner for me. Being a digital artist Wacom products are a necessity"

- Sachin Nagar (Concept Artist and Illustrator)

"I have been working in the industry for about 6 years now and through this journey, using Wacom has been the most integral part"

- Vivek Nag (Artist/Illustrator)

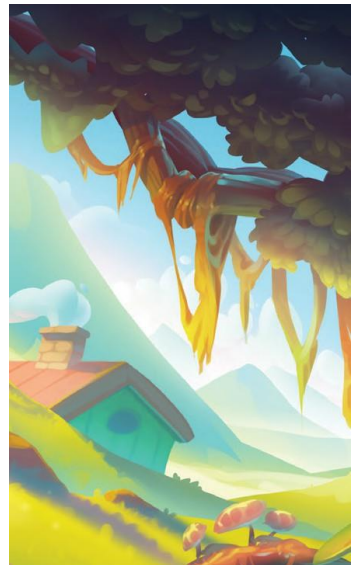

"Wacom pen tablet is a one time investment. It can provide truly magical results, provided you know what you are doing!"

- Neeraj Menon (Concept and Comic Artist)

"I got featured in designtaxi.com and many other international design blogs... and 'Adobe' also tweeted about that series... all thanks to the avenues that Wacom has opened up for me."

- Raj Khatri (Digital Artist)

"Currently I have been using Cintiq 22HD & I enjoy painting on it because it's very accurate. You feel exactly the same how you draw on paper so technically it feels very traditional on a digital platform."

- Sahil Trivedi (Concept Artist & Illustrator)
